

ARJUN SHARMA

Computer Science Engineering Student | Ahmedabad, Gujarat | +91-98765-43210 | arjun.sharma@example.com
GitHub: github.com/arjunsharma | LinkedIn: linkedin.com/in/arjunsharma

CAREER OBJECTIVE

Computer Science Engineering student with strong foundations in C++, Data Structures and Algorithms, Object-Oriented Programming, and web development. Interested in software development roles and building practical applications using modern technologies. Looking for opportunities to apply problem-solving and programming skills in real-world projects.

EDUCATION

B.Tech in Computer Science Engineering — ABC Institute of Technology, Ahmedabad | 2024–2028 | CGPA: 8.4/10
Class XII — XYZ Senior Secondary School, Ahmedabad | 2024 | Percentage: 88%

TECHNICAL SKILLS

Programming Languages: C++, Python, JavaScript
Data Structures & Algorithms: Arrays, Strings, Linked Lists, Stacks, Queues, Trees, Graphs, Binary Search, Sorting, Recursion
Web Development: HTML, CSS, JavaScript, React.js, Node.js, Express.js
Databases: MySQL, SQLite, MongoDB
AI/ML: Python, Pandas, NumPy, Basic Machine Learning, LLM APIs, Prompt Engineering
Tools: Git, GitHub, VS Code, Postman, Docker
Core CS: DBMS, Operating Systems, Computer Networks, OOP

PROJECTS

AI-Powered Interview Preparation Bot — Python | FastAPI | Ollama | SQLite | HTML/CSS/JavaScript

- Developed an AI-powered platform for personalized technical interview preparation.
- Integrated a local LLM using Ollama to generate interview questions and evaluate student answers.
- Implemented REST APIs using FastAPI for student management and interview sessions.
- Stored interview history, scores, and feedback using SQLite.
- Designed a performance dashboard to identify strengths and weaknesses.

Online Quiz Management System — HTML | CSS | JavaScript | Node.js | MongoDB

- Developed a web-based quiz platform with multiple-choice questions.
- Implemented user score calculation and result tracking.
- Created an admin interface for adding and managing questions.
- Used MongoDB for storing users, questions, and quiz results.

Personal Expense Tracker — C++ | Data Structures

- Built a command-line expense management application.
- Used vectors, maps, and sorting algorithms to organize transaction data.
- Implemented category-wise expense analysis.
- Added monthly and yearly spending summaries.

EXPERIENCE

Software Development Intern — TechSolutions Pvt. Ltd., Ahmedabad | May 2026–July 2026

- Assisted in developing REST APIs using Python and FastAPI.
- Worked with SQL databases for storing and retrieving application data.
- Fixed bugs and improved API response handling.
- Collaborated with developers using Git and GitHub.
- Participated in testing and code reviews.

ACHIEVEMENTS

- Solved 250+ problems on LeetCode and GeeksforGeeks.
- Participated in multiple college-level hackathons.
- Ranked among the top students in the department in competitive programming.

- Completed courses in Data Structures, Web Development, and Python.

CERTIFICATIONS

Data Structures and Algorithms | Python Programming | Web Development | Introduction to Machine Learning

SOFT SKILLS

Problem Solving | Communication | Teamwork | Leadership | Time Management | Adaptability

INTERESTS

Artificial Intelligence | Competitive Programming | Web Development | Software Engineering

TARGET ROLES

Software Developer | Backend Developer | Full Stack Developer | AI/ML Engineer
